

Important Tips for Virtual Learning

Dear Parents,

In order to improve the virtual learning process kindly consider the following tips:

- 1- Make sure that the internet is **fast enough** to access the online classes.
- 2- Students **must** enter classes with **their names** written in Microsoft Teams.
- 3- Students **must** wear proper clothes and sit in an appropriate environment.
- 4- All virtual lessons are recorded and will be uploaded automatically in Classlight, so kindly be sure **only students** appear in the videos.
- 5- **Only students** can contact their teachers during classes, parents can contact school administration regarding any comments or technical problems to not disturb the classes.

Thanks for your cooperation.

Sincerely,

JCS Administration
